Summary –

Data Scientist with 2.6 years of experience in Data Analysis, Machine Learning, Predictive Modeling, and BI. Skilled in Python, SQL, Statistical Analysis, EDA, Data Cleaning/Validation, Feature Engineering, and ML algorithms including Regression, Decision Trees, Random Forest, and Boosting. Experienced in end-to-end ML solutions, data transformation, Power BI, Tableau, and translating business requirements into data-driven insights.

Professional Experience –

Data scientist – Tata Consultancy Services (TCS), Pune | March 2024 – Present

- Designed an **end-to-end machine learning pipeline** for vehicle accident risk prediction using **500K+ simulated telemetry records** and **35+ vehicle, driver, weather, and road-condition features**.
 - Performed **data preprocessing, EDA, missing-value treatment, and feature engineering**, creating **10+ business-relevant predictive features** and improving data quality.
 - Built and compared **6 ML models — Logistic Regression, Decision Tree, Random Forest, XGBoost, LightGBM, and CatBoost** — using **hyperparameter tuning and cross-validation**, achieving **96.2% Accuracy, 92.4% Precision, 90.8% Recall, 91.6% F1, and 97.5% ROC-AUC**.
 - Developed a **FastAPI REST API** for real-time predictions (**<200 ms**), containerized with **Docker**, and designed **AWS deployment architecture with CI/CD, monitoring, and logging**.
 - Applied **SHAP explainability** to identify key risk factors and built **Power BI dashboards** for accident trends, high-risk drivers, vehicle health, and operational KPIs, supporting data-driven decisions.
-

Professional Skills –

- **Programming:** Python, SQL
 - **Data Analysis:** Statistical Analysis, Data Cleaning, EDA, Data Visualization
 - **Machine Learning:** Classification, Regression, Feature Engineering, Model Evaluation
 - **AI & NLP:** Generative AI, LLMs, NLP, Text Analytics, Prompt Engineering
 - **Tools & Libraries:** Power BI, Excel, Git, Jupyter Notebook, Pandas, NumPy, Scikit-learn, Matplotlib
-

Certifications –

- **Microsoft Azure data scientist associate**
-

Education -

MBA in Business Analytics

June 2026

Dr. D.Y. Patil College (Online learning), Pune
